There are plenty of things children see around them and they use them every day. But they don't know what they are and where they come from, because nobody helps them to understand these things. On the contrary, children by nature are curious enough to know and learn the things they come across.

The series of "My Concepts" consists of three general knowledge books for preschoolers which plays a key role in holistic learning of a child. The book in hand aims to develop clear sense of colors, shapes, sizes, sounds, types, features, uses and benefits of different things and objects. Pictures, toys, drawing and coloring activities coupled with observation of the real environment used as resources to develop these books. The themes introduced in the book; includes My Self, Food, Places, Animals, Plants, Seasons, Professions, Technology, My Islam and My Country.
